Case Manager, Medication Assisted Treatment

(hourly pay rate: \$15.95)

CARE's Clinical Department is in search of a case manager supportive of multiple pathways of recovery and knowledge of medication assisted treatment. The ideal candidate has a passion for community based work, is an asset to the medication assisted treatment team, and can connect those in treatment to the variety of resources they need to become self-sufficient and in long term recovery.

Duties and Responsibilities:

- Maintain a case load and deliver services.
- Conducts screenings and comprehensive assessments for substance use disorders and co-occurring behavioral health issues according to best practices and agency policy and procedures.
- Implements and monitors treatment plans that are developed with a Person-centered/Family-centered philosophy.
- Responsible for the identification of treatment referrals/resources within the community appropriate to meeting the needs of the individuals served.
- Knowledgeable of motivational interviewing, engagement strategies, co-occurring disorders and stages of change.
- Apply evidenced based practices including the use of motivational interviewing and other strategies to encourage full participation from those receiving services.
- Completes documentation and reports according to agency and funding source timeframes.
- Ability to deliver services in the community.
- Ensures paperwork is completed and maintained in accordance with CARE's and funding source standards.
- Able to apply outcome tools to measure services; for example self-sufficiency matrix.
- Provide presentations on general substance use issues and CARE of SEM's services as needed.
- Facilitate educational classes/groups related to programming as needed.
- Establish and maintain liaison relationships with appropriate agencies regarding intervention and clinical services.
- Attends assigned meetings as required.
- Ability to adjust hours of work based on the community needs, including some evening and weekends.
- Knowledgeable of national and local substance use and prevention statistics and demonstrates the ability to apply current trends to service delivery.

Education and Experience:

1. A Bachelor's degree in social work, sociology, psychology, family ecology, consumer/community services, family studies, family and/or child development, guidance/school counseling, counseling psychology, education, public health, human services, or criminal justice.
2. Experience working with families/adults with substance use disorders or related field.
3. Must possess active status, with licensure or certification in accordance to professional field required by that governing body (LBSW, LPC, LLP, etc.) and one of the following:
 - a. Certified by Michigan Certification Board for Addiction Professionals (CADC, CAADC, CCDP, CCJP) or
 - b. Must have a registered development plan and be timely in its implementation.
